2024

LORDLAND UNIVERSITY

Bachelor of
Christian Management

2019

Seohae College

Associate Degree
in Applied Music

2015

Hanlim Multi Art School

Applied Music
High School Diploma

EXPERIENCE

LF VANESSA BRUNO athé

Womenswear Designer — May 2021 - Present

Womenswear designer at LF, now in my sixth year. Since my third year, I have developed down and double-faced wool pieces, alongside leather, fur, tweed, tailored and casual outerwear.

Outerwear & materials

Developed down, double-faced wool, leather, fur and tweed outerwear.

Product development

Design proposals, technical packs, sample fittings, revisions, production and QC.

Trend & styling research

Translated WGSN, runway and styling research into brand-relevant shapes and details.

AI visualization

Visualized alternatives, proportions, textures and details to communicate design intent.

Collaborations

2022 SS Jang Woo-chul: sole jersey designer; co-planned the tennis capsule with a senior designer.

2023 SS Yoo Ji-hye: participated in a brand-wide collaboration.

2025 SS VB+YK with Jung Yoon-ki: developed logo tees, caps, bear keyrings, labels, embroidery, graphics and packaging.

New concepts into lasting products

Proposed jersey tops with a woven-top look, replacing lace and prints with refined silhouettes and finishes. Developed the concept into a recurring product line.

Designing for a broader customer base

Extended the top into online colors, sleeved and casual versions, retaining its character while accommodating different preferences for coverage and fit.

Series development from sales feedback

Expanded a well-received round-neck tee into turtleneck and wool-stripe styles, adapting fabrics and styling across seasons.

Fitting Model

Apr 2018 - Apr 2021

Worked with Handsome, LF and Samsung C&T on design-room fittings, collection reviews and overseas buying presentations.
